Profile

My passion is helping people reach larger audiences by creating websites that are fast, interactive, and responsive. I am a problem-solver with a background in project management, data analysis, and I love to find creative ways to incorporate animations into my designs.

Experience

FREELANCE WEB DEVELOPER – 2018-PRESENT

I have built websites for various small businesses locally in San Antonio to help them generate more traffic and maintain sales during the pandemic.

ELECTRICIAN, R-N-R ELECTRIC – 2018-PRESENT

Perform direct installation of wiring and electrical appliances at new construction sites across San Antonio/New Braunfels. Proudly building our community while learning the importance of clean, quality work.

PORTER SUPERVISOR – 2016-2018

Oversee budgets and employees for cleaning contracts across San Antonio, Responsible for monitoring employee hours, maintaining company supplies, and efficiently managing job budgets.

DIRECTIONAL DRILLER – 2013-2016

Lead Directional Driller for multiple oil/natural gas drilling operations across the midwestern USA. Daily use of drilling software such as InDesign and WellArchitect.

Education

University of Texas at San Antonio - Coding Boot Camp, 2020

Skills

I have experience working with HTML, CSS, JavaScript, jQuery, Bootstrap, API's, JSON, AJAX, Axios, Firebase, AWS, Heroku, Git, GitHub, MySQL, MongoDB, Mongoose, Sequelize, Handlebars, Node.js, Express.js, MVC's, JSON Web Token, Sessions, Test Writing/Jest, algorithms, and data structures. My technical experience, work ethic, and diligence make me an advantageous candidate for any development team.
